DE TRIREMI ROMAЕ
CONSTRVCTA
IVSSV SIXTI QVINTI
PONT. OPT. MAX.

ACTARE ingentem prisca Actas de-
sinat Argon,
Quæ pelagi vndantes campos, Neptun-
niaq; arua,
Prima pererrauit, Ventisq;, & fluctibus
ausa est
Credere se prima, ac Tellurem in Colchida vexit,
Argiuos Heroas, Qui Duce Iasone pellem
Auratam abduxere e sinibus acceis:

Desinat ac Puppim celebrare recentior Aetas,
Quæ prima herculeas est iam transgressa Columnas,
Quæq; Abylam, & Calpen ultra magni æquora uasta
Oceani secuit, totum & circumdedit Orbem.
Terrarum, unde fuit meritò Victoria dicta.

Nam media SIXTVS fabricandam QVINTVS in Vrbe
Romulea iussit tam insignem ex Arte Carinam,
Vt sit eam Mauors Cælo miratus ab alto,
Nec similem in liquidis Neptunus uiderit undis,
Quam lato excepit gaudens in flumine Tybris,
Cumq; suis Nymphis Tyrhenum adduxit in Aequor.

Non illa Heroas fictos, efficta uel Arma
Aduchet in Colchos, præda fictaq; potitos
Phasiaco reuchet claras ex Amne Mycænas,
At ueros, fortesq; Viros, Qui robore, & armis
E latijs ualeant detrudere sinibus Hostes,
Qui Maria infestant nostra, atque accedere nostris
Littoribus, uastare Agros, auertere prædas
Ingentes, nostramq; audent turbare quietem:

Non illa extremi percurrer littora Ponti,
Laudis ut humanæ uanum sibi quærat honorem;
At munita sinu tyrheno insister, & oras
Ausonias, magnæ ac defender Mœnia Romæ,
Pontificemq; ipsum SIXTVM, Qui uertice in alto
Vaticani adstans, totq; inde, ac tanta pericla
Prospiciens, Vrbi quæ instabant undique Sacræ,
Infandis Terras expurgat, & Aequora Monstris,

Ita-

Italiamq; omnem tranquilla in pace tuetur.

Illā igitur Fœlix dicetur iure Triremis,
At magis erit fœlix tanto sub Principe Romæ,
Per quem Virtutis priscæ reparantur honores,
Atq; septeni insurgunt ad Sydera Colles.
